CORDLESS METAL SINGLE FOIL SHAVER BFS1A

OPERATING INSTRUCTIONS

IMPORTANT: This shaver has been engineered to give you a clean, close, smooth shave. It requires 2 AA batteries (included). We recommend using longer-lasting alkaline batteries in your shaver. If you are not going to use your shaver for a long period of time or if the batteries are dead, remove or replace the batteries from the unit.

1. Remove the metal housing by sliding the bottom switch over and pulling the cover off.
2. Align the 2 AA batteries with the positive and negative positions indicated inside the battery compartment. Being careful not to bend the springs, insert the

negative end of each battery first so it will slip easily into place.

3. Return the metal housing by sliding it over the plastic inner housing until it clicks into place.
4. To use your shaver, push ON/OFF switch upward to the ON (I) position.
5. After you finish using your shaver, push down on the ON/OFF switch to turn the shaver OFF (O).
6. Remove the batteries if the batteries are no longer functional or if the shaver is left unused for an extended period of time.
7. Clean the battery contacts and also those of the device prior to battery installation.
8. Remove used batteries promptly.
9. Always purchase the correct size and grade of battery most suitable for the intended use.
10. Replace all batteries of a set at the same time.
11. Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel cadmium or nickel metal hydride) batteries.

ON/OFF SWITCH

To operate, simply slide switch to the ON (I) position. To stop operation, set to the OFF (O) position.

VERY IMPORTANT: Cutters must be cleaned and oiled on a regular basis for proper functioning. Failure to regularly clean and oil the cutters will void the warranty.

BASIC INSTRUCTIONS FOR USE

1. Men whose skin is sensitive or easily irritated by shaving, or who suffer from a skin allergy, should test one section on the leg or arm before using the shaver.
2. Remove the protective cover and turn on the unit to start shaving. Hold the shaver at a right angle to the area that you want to shave and run the double shaving foil carefully along your skin. Tip: In general, we recommend that you shave against the direction of hair growth, as this is the best way to trim the hair. Pull your skin tight, with your fingers in inaccessible areas, to achieve optimum results.
3. Switch the shaver off each time after shaving and clean it.
4. Do not push the shaver on the skin too hard as it could cause irritation, make the shaver warm and prevent a perfect shave.
5. Please note that it takes 2 to 4 weeks for your skin to adapt to a shaver, so please do not change shaving instruments in this period of time.
6. If hair is longer than 1mm begin by cutting the hair down first with a trimmer, than use shaver for a smooth close shave.
